

HISO
Air[®]

Wall-mounted Ventilation series™ (HV-600)

Large air volume and low noise

Exceptional Low Noise

Our Decibel Cancellation™ Technology ensures noise levels 5-10dB lower than competitors

Unique Air Duct Design

With over five times more wind wheels, our unique duct design surpasses traditional purifiers

Deliver outdoor natural wind

PTC Intelligent Heating

Features efficient built-in heating elements that warm incoming air

High-Volume Ventilation

Boasts a 210 (m³/h) ventilation system for fresh outdoor air, enhancing indoor CO₂ and oxygen levels

Space-Saving Wall Mount

Wall-mounted installation, optimizing space utilization

High precision sensor

CO₂ Sensor

Monitors and adjusts inflow to maintain optimal room CO₂ levels automatically

PM2.5 Sensor

Built-in sensor adjusts cleaning intensity in cycle mode based on air quality, thanks to the PM2.5 sensor

Specifications

Model No	HV-600
Type	Wall-mounted Type
Max Air Volume (PM2.5 CADR)	600m ³ /h
Fresh Air Volume	210m ³ /h
Max Application Area	40-70m ²
Noise	37-60.5dB
Filters	HEPA Filter + Aldehyde Removal Filter
Shell Material	Metal and Fabric
Voltage	220V/50Hz
Input Power	55W
Heating Power	780W
Machine Size	470*800*232mm
Net Weight	25Kg
Optional	IOT Connection
