# Wall-mounted Ventilation series™ (HV-600)

## Large air volume and low noise

### Exceptional Low Noise

Our Decibel Cancellation™ Technology ensures noise levels 5-10dB lower than competitors

### Unique Air Duct Design

With over five times more wind wheels, our unique duct design surpasses traditional purifiers

## Deliver outdoor natural wind

### PTC Intelligent Heating

Features efficient built-in heating elements that warm incoming air

### High-Volume Ventilation

Boasts a 210 (m<sup>3</sup>/h) ventilation system for fresh outdoor air, enhancing indoor CO<sub>2</sub> and oxygen levels

### Space-Saving Wall Mount

Wall-mounted installation, optimizing space utilization

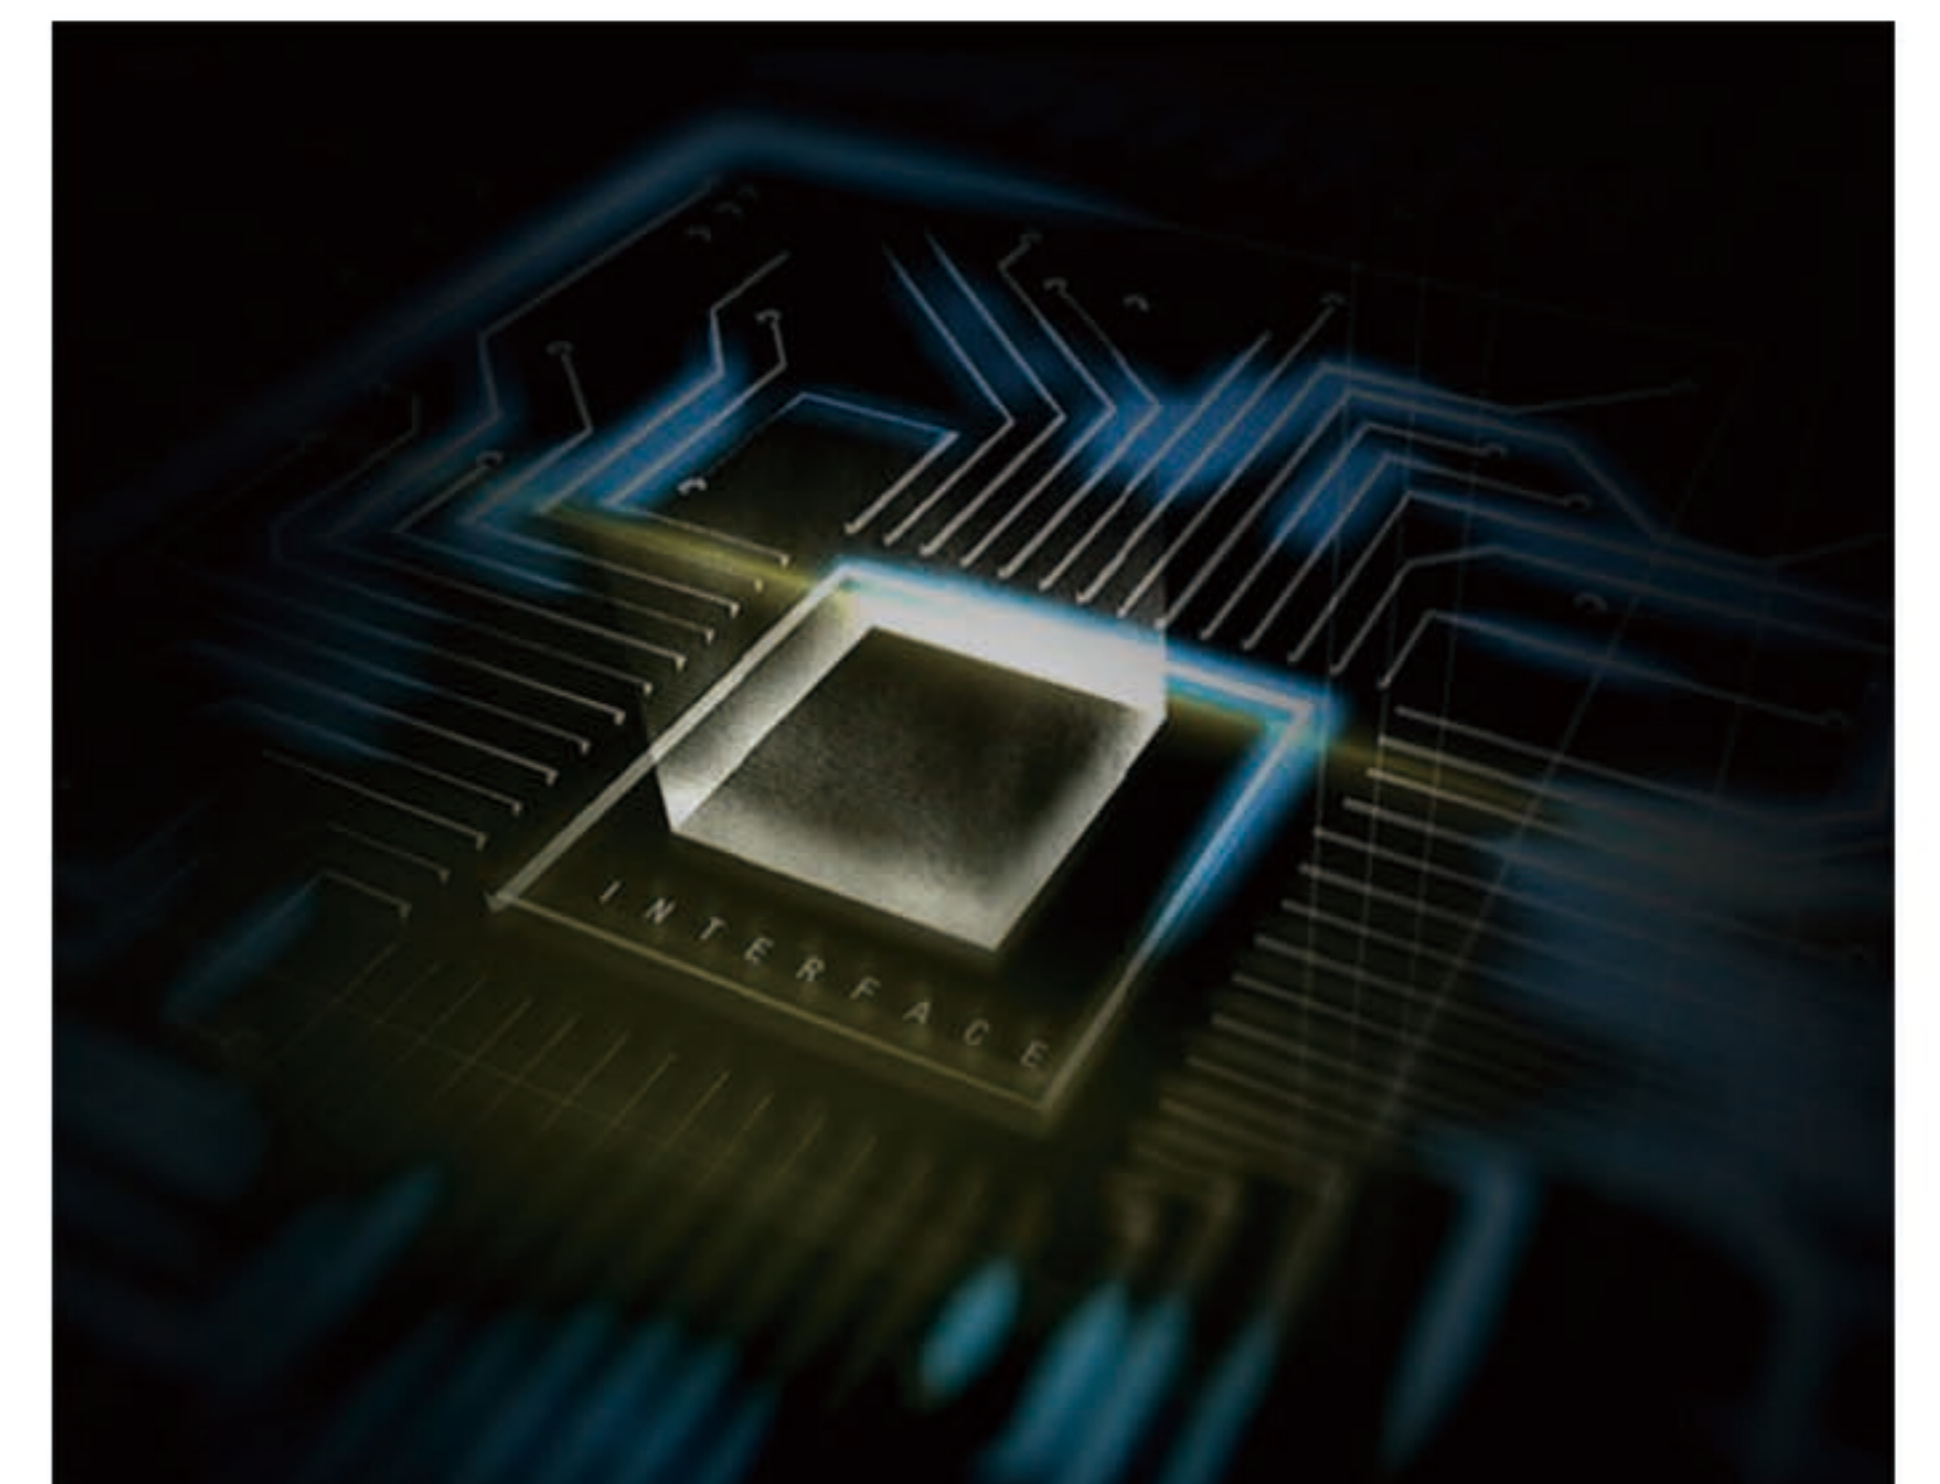

## High precision sensor

### CO<sub>2</sub> Sensor

Monitors and adjusts inflow to maintain optimal room CO<sub>2</sub> levels automatically

### PM2.5 Sensor

Built-in sensor adjusts cleaning intensity in cycle mode based on air quality, thanks to the PM2.5 sensor

## Specifications

Model No	HV-600
Type	Wall-mounted Type
Max Air Volume (PM2.5 CADR)	600m <sup>3</sup> /h
Fresh Air Volume	210m <sup>3</sup> /h
Max Application Area	40-70m <sup>2</sup>
Noise	37-60.5dB
Filters	HEPA Filter + Aldehyde Removal Filter
Shell Material	Metal and Fabric
Voltage	220V/50Hz
Input Power	55W
Heating Power	780W
Machine Size	470*800*232mm
Net Weight	25Kg
Optional	IOT Connection
